

RESEARCH INTEREST

I design, build, and deploy systems that involve non-experts’ voices, such as creators, fans, and healthcare workers. In the blurred line between AI-generated content and authentic content, I am exploring the design space of how AI systems can be responsibly designed, incorporating differing values across multiple stakeholders.

EDUCATION

2022 -	Cornell University , Ithaca, United States PhD student in Information Science (Concentration: Human-Computer Interaction) (expected graduation year: 2027)
2020	Sogang University , Seoul, Korea Master of Arts and Science (Human-Computer Interaction), (year of graduation: 2020) Department of Arts and Technology <i>Advisor: Yongsoon Choi</i>
2017	Sookmyung Women’s University , Seoul, Korea Bachelor of Public Relations & Advertising (year of graduation: 2017) Minor in Business Administration

RESEARCH EXPERIENCE

2022 - **Communication and Collaborative Technologies Lab**, United States
Graduate Research Assistant

- Design/conduct interview study to Investigate content creators' practices and challenges in direct-messaging on social media
- Prototype a personalized authoring AI tool using content creators' social media posts

2020 - 2022 **KIXLAB, KAIST**, Korea
Researcher, Mentor: Juho Kim, Collaborators: Sung-Cheol Lee, Yoonseo Choi

- Understand fans' perception and expectation towards AI synthetic idol voices
- Investigate daily AI recommender system design consideration to increase user's agency
- Investigate design implications for entertainment media platform UI/UX supporting autonomous vehicle
- Design a real-time chat discussion interface supporting argumentative questioning and moderation

2019 - 2020 **VDSLab, Sogang University**, Korea
Research Assistant, Mentor: Yongduck Seo

- Investigate ML pipeline techniques for implementing End-to-End Deep Learning algorithms detecting attributes in traffic signages roads

2018 - 2020 **Lifestyle Media Lab, Sogang University**, Korea
Master Student, Advisor: Yongsoon Choi

- Design chatbot conversation supporting customer VOC(Voice of Call) service
- Design wearable textile body mat supporting young children to practice body movements
- Conduct qualitative & quantitative analysis for investigating discussion dynamics in theory -based AI discussion comment system (Thesis)

WORK EXPERIENCE

2022 - 2024	Teaching Assistant , Cornell University • <i>INFO1300: Introductory Design and Programming for the Web</i> • <i>INFO2950: Introduction to Data Science</i> • <i>INFO5355: Human Computer Interaction Design</i>
2015 - 2017	Creativia , Korea Account Executive • Manage online influencers-based advertising campaign using Instagram • Analyze user behavior with about CTR(Cost-Through-Rate) data and decision making for promoting online banner • Wireframe for designing web campaign sites.
2014	Microsoft Korea , Korea Marketing Assistant • Official social channel operation (http://www.facebook.com/officekorea) • Contents planning and design • Offline event planning and operation • Advertising agency communication

SKILLS

Research Methods	Web interface implementation, Qualitative study design (workshop, survey, interview), Quantitative analysis (Frequentist methods), Heuristic testing, product management
Language /Framework	HTML/ CSS/ Javascript (React, Typescript, Node) Python, MongoDB, Django
