Computer engineering graduate student. Enthusiastic and eager to contribute to team success through hard work, and constantly strives to improve. Motivated to learn, grow, and excel in big tech companies.

Education

- **University of Michigan** - Computer Science and Engineering, Ph.D , August 2024 - Present
- **Addis Ababa University** - Electrical and Computer Eng. ,BSc. Sep 2018 - June 2023
 - Relevant Coursework: Data structure & algorithms, Object Oriented Programming, Web Development, Calculus I, Calculus II and Calculus III.
 - **CGPA 3.94/4** —Second Highest in AAU Engineering school.
- **A2SV - Africa To Silicon Valley / Coding Academy**
 - Connects Students with top silicon valley companies. A2SV students have achieved a 70% success rate in 2022 at Google Software Engineering interviews.
 - Learned Data Structure and Algorithm. Solved more than 800 questions on [leetcode](#) and [codeforces](#).
 - Implemented a web and mobile app based review system called [RateEat](#) with thirty plus team members. Worked in frontend, and product teams. Contributed to the development of the user profile page, Items list page, and categories component.

Experience

- **University of Michigan** - Graduate Student Research Assistant, August 2024 - Present
 - Conducts graduate level research under the supervision of my advisor
- **African to Silicon Valley(A2SV)** - Software Engineer and ML Engineer, September 2023 - Present
 - Work on Web development - full stack (Django + React + Node)
 - Work on Data preparation and cleaning, and Model development.
- **African to Silicon Valley(A2SV)** - Head of Education, March 2023 - Present
 - Prepare slides and give lectures on Data-Structures and Algorithm topics.
 - Mentor and oversee students' progress.
- **University of Michigan** - Assistant researcher, May 01 - July 20 2022
 - Conducted a three month long research project focused on Automating the chip design and production process under the mentorship of [Prof. Mehdi Saligane](#).
 - Got familiar with [OpenFasoc](#) project which was under [openRoad](#) DARPA and Google project.
 - Worked in the optimization of the placement of header cells on the temperature sensor chip. with python, and TCL. ([presentation link](#))
- **Addis Ababa Institute of Technology Student Council** - Different positions, Sep 2019 - May 2022
 - Elected to be a member by the student body and the management office of the institute
 - Served for almost three years in Student services, secretary, and president positions.
- **Eskalate LLC** - Backend Developer intern, Aug 2022 - Dec 2022
 - Worked on a backend for a mobile app and a web system called HakimHub, which is a platform that provides information about healthcare facilities and healthcare professionals in Ethiopia.
 - Worked in the Mobile team, implementing the professionals' filter feature.
- **New Era Research and Development (N.E.R.D)** - Junior Intern, Feb- May 2022
 - Worked on mini microcontroller projects.
 - Participated in a project that involved building a model of a 3D printer from scratch.

Skills

- Web Development using MongoDB, React/Vue, NodeJS, Django and TypeScript.
- Python, Machine learning, pandas, numpy.
- Dart(Flutter), System Design.

Projects

- [Digital Vending Machine](#) (Node + Django + Flutter + Raspberry pi + React + mongodb + Hardware): Final year thesis project. A mobile app to purchase an item from a vending machine with just a scan of a QR code on the machine. Also a web app for the owner of the vending machines to monitor their business.
- [School Portal](#) (Node + MySQL + EJS): A web based application that allows students to register for semester and courses, to rate their teachers.
- [Car Dealership](#) (React + Node + MySQL): Web app to buy, sell and rate cars.

Awards

- Seeds for the Future of 2021, Huawei [Certificate of Completion](#).
- Executive committee of IEEE student branch of Ethiopia, IEEE awarded to the top scores in Addis Ababa University.
- Recognition of [Silver Medalist](#), Addis Ababa University awarded the silver medal for being the second top scorer in the Addis Ababa Institute of Technology (Engineering faculty of Addis Ababa University).

Interests

- Algorithms and problem solving.
- Chess (I was 11th best bullet player in Ethiopia),
- Movies, volleyball, and table tennis.
